Professional Summary

A sophomore Computer Engineering student actively engaged in machine learning and software development (Java, Python) projects. As a TÜBİTAK STAR Researcher, I design AI-based systems while integrating analytical problem-solving skills derived from my background in educational coaching. Leveraging my 2nd place achievement at the Turkcell Code Night Hackathon and my organizational leadership as a founding Vice President, I aim to create impactful value in innovative technology projects.

EXPERIENCE

- Vice President | Ege University Computer Engineering Society** **OCTOBER 2025 – PRESENT**
- Played an active role in the society's founding process and established its organizational structure; currently responsible for event planning, team coordination, and managing intra-university communications.
- Undergraduate Researcher (STAR) | TÜBİTAK 2247-C STAR Program** **JANUARY 2026 – PRESENT**
- Actively participate in data collection, preprocessing, and analysis for a machine learning-based research project; contribute to model development, academic research, and reporting.
- Campus Ambassador | Aspire Institute (CAL Program)** **MARCH 2026 – PRESENT**
- Serve as a campus ambassador for the global leadership initiative Aspire Institute; raise awareness on campus to connect students with professional development programs.
- University Entrance Exam Coach | KANT Academy** **APRIL 2024 – NOVEMBER 2025**
- Coached high school students for university entrance exams, designing tailored study plans and tracking academic progress.
- Fellow | Artificial Intelligence and Technology Academy** **JANUARY 2025 – AUGUST 2025**
- Completed hands-on training in data science and modern software technologies as an academy fellow; co-developed "Vitacheck", a collaborative team project focused on healthcare data analysis
- Software Team Member | EGE SAVTEK Rocket Team** **OCTOBER 2023 – DECEMBER 2023**
- Developed C#-based software for collecting and analyzing rocket telemetry and launch data; took an active role in intra-team problem-solving and debugging processes.

EDUCATION

- Ege University — Bachelor of Science in Computer Engineering - 2023 – PRESENT | Sophomore**
- Completed English Preparatory Program (Grade: 92/100)
 - CGPA: 3.6 / 4.00
- Akşehir Hacı Süddika Baysal Science High School 2019-2023**
- Graduation Score: 97 / 100

HONORS & AWARDS

-  **2nd Place Winner | Turkcell "Geleceği Yazanlar" Code Night Hackathon – Izmir Stage (2026)**
Secured 2nd place as a team in an intensive overnight case marathon.
Co-developed a REST API-based full-stack solution (Java, JavaScript, HTML, CSS).
Actively contributed to problem analysis, backend architecture design, and final solution pitching.

SKILLS & CERTIFICATIONS

- Technical:** Python, Java, C#, SQL (PostgreSQL, SQLite), Git, OOP, Machine & Deep Learning, HTML/CSS
- Languages:** English (Advanced), Turkish (Native)
- Certifications:** Aspire Leaders (Aspire Inst.) | Academic Coaching (Kant Acad.) | C# Workshop (BTK)
